Creative Director: Naomi

Designer: Chelsea

- Think the texture added is really nice! Curious about how it ties into Alpine culture
- I like the inclusion of the map idea. Super well done
- TBH i don't have any big concerns! Great job
- Get higher image quality for some of the photos?

Viewing through iphone SE dimensions- this doesn't read as well as it does on laptop dimensions. On the laptop dimensions, there are bullet points/dots in between the three ideas. But on phone, it's unknown what the purpose of the list (parades, music & dancing, market stalls) are. I would either make the list more intuitive or remove (tbh removing might be easier)
