Project Title: All Roads Lead Downhill: *Almabtrieb,* Alpine Tradition

1. **Project Overview**
   The goal of my website is to present this tradition in an authentic way within the website format. I don't want it to feel diluted in its final form. I want to focus on the cattle, as well as the parade/festivities that humans put on. I also want to highlight similar traditions.
2. **Resources**
   Copy is available at Wiki link: https://en.wikipedia.org/wiki/Almabtrieb. There is photography there, as well as in stock imagery websites too.
3. **Audience**
   I want this website to be kid-friendly because it's a super fun topic! Thinking middle school reading level? I don't want it to be extremely complex, as that narrows the gap for who gets to enjoy it.
4. **Message**
   I don't want the website to take itself too seriously. Mainly informational regarding Almabtrieb and that it has cross-cultural counterparts- not just limited to the Alps.
5. **Tone**
   I think it makes the most sense to have the website pretty lighthearted. I want it to appeal to people of all ages, so nothing too serious.
6. **Visual Language**
   Playful, fun, light. Illustrative maybe?
